## Satellite mapping of Blue Gold Polders 2011-2021

Amsterdam, June 10th 2021

**Summary**  
In April 2021 TerraSphere was commissioned by Environmental Affairs (Ministerie van Milieu) to perform an analysis of landscape changes in a selection of polders in Brabantland using satellite data within the scope of the Blue Gold program. The report describes the results of the work done within this contract.

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
