Blue Gold Program

Workshop on Action Planning for WMA Capacity Building

Workshop Summary

The Zonal Office, Satkhira, organized the workshop and invited the facilitators and participants for attending the workshop.

The Zonal Office, Satkhira, emphasized the importance of the role of BGP TA Team and while we are obtaining right now regarding the matter along with our objective the need. We have spent 3 years for Functional WMA capacity building, but we will have to strengthen the WMA and have it in the functional WMA within next 6 months. We will discuss the role of the TA team and we will also try to find out the way to establish an office. Do the meetings with WMA.

The Zonal Office, Satkhira, said, "It is crucial that action is taken in the plan and we do it according to that, we will be able to make functional WMA. WMA is a general organization, it is a general WMA, it will bring the support from the private and public sectors. They will use the local resources, the BWSB, BWSB, GAC, DAF, DAF, etc. WMA's main role is to ensure the quality and to the water management to use a better production and ensuring economic development of the polder community."

Key Points of the Workshop

Responsibilities of a Functional WMA

- O&M Agreement Signing is a responsibility of WMA.
- WMA will play role on O&M planning and implementation with O&M Sub-committee.
- WMA will do coordination.
- WMA will do use of coordination and communication with relevant organizations and local resources.
- A strong functional WMA will make a bridge with UP, BWSB, GAC, DAF, etc and use the support for WMA. WMA will report and attend the local resources like the BWSB.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
