Duration: January 20-21, 2014
Venue: CODEC, Patuakhali

Blue Gold Program
ToT on Construction Management for LCS
Duration: January 20-21, 2014
Venue: CODEC, Patuakhali

Background of the Training:
Labour Contracting Society (LCS) is a group of contractual workers who participate in the water management infrastructure construction in an efficient manner. During earth work time, for this type of income and resource related activities, the workers and some females are the main participants and beneficiary. This type of income and resource related activities had for several years in the region.

LCS work is not only about earthwork, but it can be said that there is more work that are related to the water based office works, they have to do some official work so their training is important. For this, a brief training course has been arranged so that they can perform the best correctly and qualitatively. This one day training course has been implemented in response to the demand of LCS workers.

Title of Training
ToT on Construction Management for LCS

Broad objective of the training
The main objective of this training is to improve the knowledge and efficiency of the newly formed LCS groups, so that they can work efficiently in the construction/reconstruction work under Blue Gold program. It is expected that the participants will accomplish the following objectives from the training.

Specific objectives of the training course
After the training participants will be able to:

1. Learn about the different stages of water management and infrastructure development in the project area.
2. Know about the responsibilities of LCS and other group in the water management infrastructure development.
3. Learn about the various rules and regulations of payment method and wage system of infrastructure development.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE)

over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
