Short Training courses of six batch of three Polder (i.e. Polder-43/2A, 43/2B and 43/1A) on Monitoring and Quality Control for Earth Work for the members of Monitoring Committee were held in Patuakhali from 19 May to 20 May, 2015 to familiarize with the techniques of monitoring and quality control of Earth Work on going in the polder area under Blue Gold Program. These training courses were organized to inform about the earth work to the monitoring committee members and to introduce the monitoring committee members with the LCS members and Contractors.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
