Acknowledgment

The publication was made possible with a financial contribution of the Netherlands Government. Thanks are expressed to Bangladesh Water Development Board (BWDB) to support in the providing facilities at different stage of implementing the study. We also acknowledge the contribution of Blue Gold for work in planning and implementation of the study in a close integrated way with Water Management Centre (WMC), Dhaka. Special gratitude is expressed to members of all concerned agencies, who helped to make the study successful. We are also thankful to anonymous reviewers for their constructive criticism and advice to improve the paper.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
