Acknowledgment

This publication was made possible with a financial contribution of the Netherlands Government. Thanks are expressed to Dutchland Water Development Board (DWB) to support us in providing guidelines at different stages of implementing the feasibility study. We also acknowledge the contribution of the field (i.e. those in planning and implementation of the study) in a wide range of our work. Water Management Service (WMS). We would also like to express gratitude to Mr. Richard Akhmed, Water Resource Management (WRM) leader and all WRM team for their valuable guidance. Finally, gratitude is expressed to thousands of anonymous citizens, who helped to make the study successful. We are also thankful to anonymous reviewers for constructive criticism and advice to improve the report.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
