## Feasibility Report – Ento-Feed

### Acknowledgment

This publication was made possible with a financial contribution of the Netherlands Government. Thanks are expressed to ICRD, Blue Field Program, Bangladesh Water Development Board (BWDB), DfP and DfAL for support in providing facilities for the development of this report. We also acknowledge the contribution of Blue Field DfP team in designing and conducting of the feasibility study as a more integrated way with Water Management Group (WPG). We are also thankful to anonymous reviewers for their constructive criticism and advice to improve the report.

Prepared by

Kazi Munir Rahman and Quazi Mahbubur Rahman (Aspire, Bangladesh)

Bas Godschalk (Insectsforall, the Netherlands)

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
