Ministry of Agriculture, Food and Fisheries
 Management & Food Government of the
 People's Republic of Bangladesh

MOA
 No. P/2012
 000/2012, dt 1/1/12

MESSAGE

It is my pleasure to know that the Department of Agricultural Extension has updated the
 New Agricultural Extension Policy (NAEP) as National Agricultural Extension Policy (2012)
 addressing the key constraints, emerging issues and strategic shifts of agriculture sector in
 the context of present global scenario to ensure food security of rapidly growing
 population.

The Policy emphasizes on integrated extension service. In order to achieve the mission and
 vision of the Policy, the public and private Agricultural Extension Services will play an
 increasingly important role in motivating, educating and assisting farmers to adopt improved
 farming practices leading to increased farm production.

I believe that the National Agricultural Policy (NAEP) will create an enabling environment
 for continued growth in food production and commercial crops and contribute to enhance
 farmers' income and growth of agricultural industry through proper utilization of existing
 resources base, organizing farmers and developing market linkage of agricultural produce.

I hope that the Policy will support the Government's priority to agricultural development as a
 means of poverty alleviation and socio-economic emancipation.

(Markus Chowdhury)

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
