SIGNING OF O&M AGREEMENT BETWEEN BANGLADESH WATER DEVELOPMENT BOARD AND WATER MANAGEMENT ASSOCIATIONS WAS A HISTORIC UNDERTAKING

The signing of agreement on operation and maintenance (O&M) of water management infra-structures between the Bangladesh Water Development Board (BWDB) and Water Management Associations (WMA) was a historic moment. The Water Management Organizations (WMOs) have achieved a legal basis through this very urgent agreement signing, whereby both the parties have pledged their commitment to the contractual obligations. This agreement would be the main guideline for WMGs in establishing as a sustainable water management organization. In view of this noble purpose of making the organization sustainable, on Sep 23, 2018, and January 23, 2019 respectively, this momentous agreement was signed in Khulna and Patuakhail.

Khulna

Blue Gold TA Team and local and national journalists, the concerned Executive Engineers and WMA representatives signed on the agreement document.

The PCD Mr. Md. Anirul Hoossain presided over the programs while guests from BWDB, DAE, EKN, WMA, delivered speeches, and congratulated the team for organizing such an effective, meaningful and important event.

Following were the key sessions of the program:
 ♦ Inauguration and introduction of the WMA participants and other guests;
 ♦ Video show on summary of BGP success which was published in different Television Media;
 ♦ O&M agreement signing, handover documents and photographs; PLEASE SEE PAGE-3

Patuakhail

Blue Gold Program is Implemented by Bangladesh Water Development Board (BWDB) & Department of Agricultural Extension (DAE)

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
