Template:Sidebar with collapsible lists

From Blue Gold Program Wiki

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

This template is used on approximately 82,000 pages and changes may be widely 40px noticed. Test changes in the template's /sandbox or /testcases subpages, or in your own user subpage. Consider discussing changes on the talk page before implementing them.

55px

This template does not display in the mobile view of Wikipedia; it is **desktop only**. Read the documentation for an explanation.

30px This template uses Lua:
• Module:Sidebar

{{Sidebar with collapsible lists}} is a version of {{Sidebar}} which offers collapsible lists as an alternative to Sidebar's *content* parameters.

Contents

- 1 Usage
- 2 Parameters
 - 2.1 Other parameters
- 3 Handling long links
- 4 Examples
- 5 See also

Usage

{{{pretitle}}} {{{title}}} {{{image}}}
{{{above}}}
{{{heading1}}} {{{list1title}}} {{{list1}}} {{{list2title}}} {{{list2}}} {{{headingN}}} {{{listNtitle}}} {{{listN}}} {{{contentN}}}
{{{below}}}
• v • t • e

Parameters with infrequent use omitted.

<source lang="html" style="overflow:auto;"> **Lua error in Module:Navbar at line 58: Invalid title {{subst:PAGENAME}}.** </source>>

Parameters

The topmost parameters (including *name*, *outertitle*, *topimage*, *pretitle*, *title*, *image*, *headingstyle*, *contentstyle*) are described at `{{Sidebar}}`. Other `{{Sidebar}}` parameters not shown here (e.g. *navbar*) may also be used.

expanded and *listNname*

expanded is used to indicate which (if any) list named *listNname* is shown expanded when the template is first displayed; see `{{Collapsible lists option}}`.

listtitlestyle and *liststyle*

These are the equivalent of, respectively, `{{Collapsible list}}`'s *titlestyle* and *liststyle* parameters.

List
<code>{{list1}}</code> without <code>{{list1title}}</code>

Any *listN* used without an accompanying *listNtitle* is still presented as a collapsible list under `{{Collapsible list}}`'s default title ("List"); see example opposite. *[Perhaps "listN"s without "listNtitle"s should be treated as "contentN"s..?]*

Other parameters

In addition to the above, the following collapsible list-related parameters are also available:

listframestyle

Sets the framestyle (see `{{Collapsible list}}`) for the lists.

listNframestyle

Sets the framestyle for *listN*, overriding *listframestyle*.

listNtitlestyle

Sets the titlestyle for *listN*, overriding *listtitlestyle* above.

listNstyle

Sets the liststyle for *listN*, overriding *liststyle* above.

Handling long links

As with the sidebar template, `{{normalwraplink}}` may be used to handle links that should wrap within the sidebar or otherwise need to be made to wrap, in order to prevent the sidebar from becoming too wide. Use `{{normalwraplink|longlinkname}}`, where *|longlinkname* is the long link without its square brackets.

Use the `|wraplinks=true` parameter to turn link wrapping off for the whole template.

Examples

Examples of this template can be found by checking the template's [backlinks](#) with [What links here](#).

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
