Acknowledgment

This publication was made possible with a financial contribution of the Netherlands Government. Thanks go especially to Ministry of Water Resources, Bangladesh Water Development Board (BWDB), and Department of Agriculture Extension (DAE) for support in implementing the project. We also acknowledge the contribution of Blue Gold 1.4 team in designing and conducting of this feasibility study. It is also recognized that with Water Management Group (WAG), we are also benefited to incorporate comments for their constructive criticism and advice to improve the report.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
