#### Gender equality in the Blue Gold Program

Gender equality means that both women and men have equal opportunities and interests. Women's empowerment means that women have more control over their own lives. There are three pillars to women's empowerment:

- Women have equal access to resources
- Women are able to participate in, and influence decision-making
- As a consequence of the first two, women experience improvements in their well-being

Importance of gender equality in the Blue Gold Program (BGP)

- To ensure that both men and women benefit from BGP gender equality and women's empowerment are not only targets, but also a specific aim of the Government of Bangladesh
- To further ensure that the overall objectives of BGP are met

#### Barriers to empowerment

- Women are not recognized as farmers
- Women have less access to information, knowledge, and resources
- Men's income, which is used for decision-making on farms, and women's responsibility on the farm
- Women's workload is considered too complex, and they are often seen as being responsible for the farm's success
- Women's work is not recognized, and they are often seen as being responsible for the farm's success

## Summary[\[edit](#) | [edit source](#)]

Women's empowerment in the Blue Gold Program, 4-pager, v2.7

empowerment is a process, enabling people to make choices and convert these into desired actions and results. In doing so, people take control of their own lives, improve their own position, set their own agenda, gain skills, develop self-confidence, solve problems, and develop self-sufficiency. Empowerment leads to genuine participation of all actors as it is a process of gaining self-confidence for individual development as well as to contribute towards development of others.

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
