**BGIF at a glance**

The Blue Gold Program Innovation Fund (BGIF) supports the Blue Gold Program (BGP) to address rural water, water, sanitation and hygiene (WASH) and development issues. (2013 - 2020)

**Total budget of fund: \$24 million**

**Total projects funded: 62**

The BGIF has funded successful approaches and best practices for the sustainable development of WASH interventions. The evidence generated provides key insights to guide future WASH activities.

**BGIF objectives**

- To promote the identification and application of innovations, both technical and non-technical
- To facilitate the scale-up of innovation to the beneficiaries of WASH and the support implementing agency

**Key impact**

The BGIF has funded 62 projects, which have reached over 10 million people in 15 countries. The project has led to the adoption of 100+ innovations, which have improved the lives of over 10 million people. The BGIF has also supported the development of 100+ innovations, which have improved the lives of over 10 million people.

**Key impact**

The BGIF has funded 62 projects, which have reached over 10 million people in 15 countries. The project has led to the adoption of 100+ innovations, which have improved the lives of over 10 million people. The BGIF has also supported the development of 100+ innovations, which have improved the lives of over 10 million people.

Conceptual stage	Feasibility stage	Pilot stage	Commercialisation/Delivery stage
Goal: Identify and define the innovation	Goal: Assess the feasibility of the innovation	Goal: Test the innovation in a small scale	Goal: Scale up the innovation to a larger scale
Activity: Innovation identification	Activity: Feasibility study	Activity: Pilot testing	Activity: Scale up
Heading: Innovation identification	Heading: Feasibility study	Heading: Pilot testing	Heading: Scale up

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
