Information has already been taken into account to stop entering saline water in the field in
 Polder 20
 • The WMA who do not get involved at 10,20,30,40 from DAE will get the decision-making
 • Representation of Model Agra limited will support to WMA for soil testing and supply of quality
 seeds in the polder
 • A solution among WMA, public and private sectors has been developed through the workshop
 that will help to get additional inputs and services from the respective department for the
 development of Polder 20
 In case of an accusation of land in public areas by WMA, the organization can cooperate with
 WMA

The workshop was started by the welcome speech of Zonal Coordinator, Blue Gold program Khulna. He said in his speech that support of DAE, DLS, DoF and private sectors are very essential to strengthening the capacity of WMA and he expected active participation of actors presented in the workshop. After his speech the participants introduced each other. Each participant said his/her name with their position and organization.

The Team Leader of BG program shared the BG goal and objectives. He also welcomed the participants. He is glad to be here and expressed that the workshop will make a bridge among WMA, public and private sectors. The DTL translated his speech in Bangla.

Binita Rani a Resource Farmer (RF)shared her experiences with Blue gold program and explained how she evolved a quality input provider from a RF by the support of Blue Gold.

Bharati Rani an input provider also shared how his business has been expanded after receiving training organized by BG. She announced the workshop that she will sale input in fair price.

Output of the workshop:

- ADD of DAE and also UAO of Dumuria announced the workshop that his department will provide all necessary support to Binita Rani to get registration from respective department.
- Bharati Rani is doing business but she has no license. DAE representative said the department will take initiatives for her license immediately
- DAE will take all necessary steps if anybody enter in to saline water for shrimp cultivation instead of crop cultivation in polder areas. DAE also informed the workshop that the

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
