WORKSHOP REPORT
ON
RABI SEASON PLANNING
FARMER FIELD SCHOOL (FFS) FOR COMMUNITY AGRICULTURAL
WATER MANAGEMENT (CAWM) AREAS
Ava Center, CSS, Khulna
October 20, 2016

Workshop Report on Rabi Season Planning
 Farmer Field School (FFS) for Community Agricultural Water Management
 (CAWM) Areas
 Ava Center, CSS, Khulna, October 20, 2016

Objectives

- To share the current progress, challenges and lessons learnt during the Awan season in the CAWM areas
- To discuss the needs, perceptions and challenges of CAWM FFS members for Rabi season cultivation and decide on the cultivation pattern for the Rabi season
- To discuss the water drainage and other water management problems in the CAWM areas, how they will affect Rabi cultivation and to identify potential solutions
- To discuss potential marketing challenges related to inputs, outputs, market linkage for the additional Rabi crop and to identify possible solutions
- To discuss the required preparation and planning for the upcoming FFS session in the Rabi season

Participants: SWOs, JSCs, FHs and ODs working in CAWM areas in Khulna Division

Organization	Designation	Number	Remarks
DWB	Trainer	1	• 1 I.P. Trained Facilitator = 1 Local SWO from Dumuria
	Local SWO	1	
BAU	Trainer	1	• 1 I.P. Trained Facilitator = 1 Local SWO from Bangladesh South
	Local SWO	1	
Local	Local Water Management	1	• 1 I.P. Trained Facilitator = 1 Local SWO from Patharghata
	Local	1	
DWB	Trainer	1	Local Water Management representative that workshop
	Local	1	
DWB	Trainer	1	Only those working in CAWM areas
	Local	1	
Total	Trainer	3	Only those working in CAWM areas
	Local	3	
Total	Trainer	3	Bhadrakhata, Patharghata and Dumuria
	Local	3	
DWB	Trainer	1	Trainer Facilitator, Jahangir Mann Kamarkhandhara, Dumuria (presented in workshop)
	Local	1

Summary [\[edit\]](#) | [\[edit source\]](#)

WORKSHOP REPORT ON RABI SEASON PLANNING FARMER FIELD SCHOOL (FFS) FOR COMMUNITY AGRICULTURAL WATER MANAGEMENT (CAWM) AREAS

Farmer Field School - A group-based learning process through which farmers carry out experiential learning activities that help them to understand the ecology of their fields, based on simple experiments, regular field observations and group analysis. The knowledge gained from these activities enables participants to make their own locally specific decisions about crop management practices. This approach represents a radical departure from earlier agricultural extension programmes, in which farmers were expected to adopt generalized recommendations that are formulated by specialists from outside the community.

Community-led Agricultural Water Management - with DAE, Blue Gold established a network of schemes for demonstration purposes where locally-applicable annual cropping patterns are introduced along with water level control facilitated by small-scale water infrastructure, and the development of value chain skills in farmers

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the

Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
