Blue Gold Program

Training on WMA Capacity Building & Catchment O&M Planning Process
Polder- 27/1&2 and 28/1&2
Date: Sep 1-5, 2019

Introduction

Training on WMA Capacity Building and Catchment O&M Planning Process for of ToF course for Catchment Committee Facilitators on Sluice Catchment O&M planning process for WMA EC Members and O&M Sub Committee Members for Polder- 27/1&2 and 28/1&2 (selected) was organized at Khulna on Sep 1-5, 2019.

These are 3rd phased polders where WMA formation completed in last 1.5 years back. They did not receive any formal/informal training for water management & organizational capacity development. The Polder Teams experience and assessment is 3rd phased polders WMOs have lack of knowledge and understanding on the above issues. Considering that WMA EC committee members are included in this training course with O&M sub-committee members and accordingly revised the training contents and outline. The 1st 2 days was conducted organizational and water management issues and remaining 3 days on polder water management, process and practice on O&M plan preparation.

The objective of the training course was twofold:

1. To develop the capacity of the Water Management Association & O&M Sub Committee Members on organizational management and water management for agriculture production;
2. To develop capacity on preparation, implementation of Catchment O&M Planning Process at the WMG and Catchment level involving farmers, UP and WMO representatives.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
