Report on
Experience Share on Women Empowerment through Backyard Poultry Rearing

1. Introduction

Blue Gold Program is working for poverty reduction of selected polders' dweller in south-west coastal region and the main vehicle for achieving the aforesaid goal is to use of water management benefits that are derived from improvement water infrastructures¹. Apart from that there are many others activities like FFS (for homestead gardening, poultry rearing, pond fish culture, beef fattening etc.) value chain development activities also been done. Since, poverty reduction is the core objective of Blue Gold thus BGP thinks if, half of working hands (women) are remain idle then poverty reduction is not possible, thus BGP try to involve women in different its activities as well as those are income and job employment activities. So, that the women can contribute to their HHs for income and production and by this way BGP is trying to empower the women of BGP working polders.

To accelerate the BGP's achievements or good practices, BGP follows horizontal learning process, and as part of that an experience share event on women empowerment through backyard poultry rearing has been held. This event was held in festival mood, interactive and as well as responsive manner.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
