**Polder 43/2E**

**Prepared By**

Abdullah-Al-Mamun  
Business Development Coordinator  
Blue Gold Program  
Patuakhali

I would like to acknowledge the WMO members, community people, Government line departments and various market actors and key persons who provide the necessary information to prepare this document. Next I want to Blue Gold authority to allow me to do such valuable work and I also acknowledge to my Blue Gold colleague who assist and inspire me to complete the document.

This is an internal document of Blue Gold Program for the Business Development Component. All information and data shared here to understand current situation of the order to develop value-chain interventions.

Blue Gold Program is a partnership between Sustainable World MacDonell, Personnel, International, ICE and ICTS. The project is lead by Bangladesh Water Development Board (BWDB) and Department of Agriculture Extension (DAE) as technical partner and is jointly funded by the Government of the people's republic of Bangladesh and the Government of the Netherlands. The project seeks to reduce poverty of the people in the coastal areas by enhanced productivity of crops, fisheries and livestock and increasing incomes by improved processing and marketing of agricultural products including value chain development.

## Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
