**Blue Gold Program – 2016 Annual Review Mission
Discussion Paper – Priority Issues to be Resolved**

Preamble

This discussion paper presents the priority issues – as viewed by the TA team - affecting the program along with an analysis of the causes and - where possible - suggestions on how to tackle these issues. The purpose is to identify the priority issues which need to be addressed by the annual review mission. Because of time constraints, these issues have not been fully discussed with BWDB, DAE or EKN – whose opinions will certainly bring perspective and insights on how to address the issues.

CONTENTS

- 1 Water resources infrastructure
- 2 Building Organizations and Networks for Sustainable PWM
- 3 Agricultural development
- 4 Monitoring, Reflection and Learning
- 5 Innovation Fund
- 6 Coordination

ANNEXES

- I 2015 MTR Recommendations
- II Exit Strategy Action Plans
- III Polder Timelines
- IV Major Infrastructural Challenges per Season
- V Proposal Joint (Polder) Management Committee
- VI Summary of FFS-scale Achieved
- VII Horizontal Learning
- VIII Joint Indicators

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
