Blue Gold Program
Report No. 4
Introduction to the
Monitoring and Evaluation Manual

Embassy of the Kingdom of the Netherlands,
 Dhaka, Bangladesh

Bangladesh Water Development Board (BWDB)
 Department of Agricultural Extension (DAE)

December, 2013

Green corner – Save a tree today!

Mott MacDonald is committed to integrating sustainability into our operational practices and culture. One of our key sustainability initiatives is to reduce our carbon footprint. To do this, we have implemented a range of measures, including the use of green paper. Our green paper is made from 100% recycled paper and is 100% chlorine-free. This means that our paper is not only good for the environment but also good for your health. We encourage all our staff to use green paper wherever possible. This will help us to reduce our carbon footprint and save the environment. For more information, please visit our website: [www.mottmac.com/greenpaper](#)

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
