From Blue Gold Program Wiki

< [Template:Citation Style documentation](#)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

- **last**: Surname of **subject**, **not interviewer**. Do not wikilink—use **subject-link** instead. Where

the surname is usually written first—as in Chinese—or for corporate authors, simply use **last** to include the same format as the source.

- **first**: Given or first names of author, including title(s); example: *Firstname Middlename* or *Firstname M.* or *Dr. Firstname M., Sr.*. Do not wikilink—use **subject-link** instead.
- OR: for multiple subjects, use **first1**, **last1** through **first9**, **last9** for up to nine subjects. By default, if nine subjects are defined, then only eight will show and "et al." will show in place of the last author.
- **subject-link**: Title of existing Wikipedia article about the subject—not the subject's website; do not wikilink.
- OR: for multiple subjects, use **subject-link1** through **subject-link9**.

Aliases: **subject**, **last**, **last1**, **author1**, **author**, **authors**; **subject2**, **last2**, **author2** through **subject9**, **last9**, **author9**; **subjectlink**, **authorlink**, **authorlink1**; **subjectlink2**, **authorlink2** through **subjectlink9**, **authorlink9**.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
