The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

- **interviewer-last**: Surname of a single interviewer. Do not wikilink—use **interviewer-link**

instead. For interviewers for whom only one name is listed by the source, use **interviewer** or one of its aliases (e.g. `|interviewer=Bono`). Aliases: **interviewer**, **interviewer-last1**, **interviewer1-last**, **interviewer1**.

- **interviewer-first**: Given or first names of interviewer; for example: *Firstname Middlename* or *Firstname M.* or *Firstname M., Sr.* Do not wikilink—use **interviewer-link** instead. Aliases: **interviewer-first1**, **interviewer1-first**. Requires **interviewer-last**; interviewer first name will not display if **interviewer-last** is empty.
- **interviewer**: this parameter is used to hold the complete name of a single interviewer (first and last). This parameter should never hold the names of more than one interviewer.
- For multiple interviewers, use **interviewer-last1**, **interviewer-first1** through **interviewer-lastn**, **interviewer-firstn**, where *n* is any consecutive number for an unlimited number of interviewer- (each **interviewer-firstn** requires a corresponding **interviewer-lastn**, but not the other way around). See the **display** parameters to change how many interviewers are displayed. Aliases of **interviewer-last1** through **interviewer-lastn**: **interviewer1** through **interviewern**. For an individual interviewer plus an interviewer with a single name, you can use `|interviewer-first1=...` `|interviewer-last1=...` `|interviewer2=...`

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
