Template:Citation Style documentation/registration

From Blue Gold Program Wiki

< [Template:Citation Style documentation](#)

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Citations of online sources that require registration or a subscription are acceptable in Wikipedia as documented in [Verifiability § Access to sources](#). As a courtesy to readers and other editors, editors should signal the access restrictions of the external links included in a citation. *Nota bene*: access icons do not display correctly for editors who use Modern skin.

Four access levels can be used:

- [access indicator for named identifiers](#):
 - [Freely accessible](#) free: the source is free to read for anyone
- [access indicators for url-holding parameters](#):
 - [Free registration required](#) registration: a free registration is required to access the source
 - [Free access subject to limited trial, subscription normally required](#) limited: there are other constraints (such as a cap on daily views) to freely access this source
 - [Paid subscription required](#) subscription: the source is only accessible via a paid subscription ("[paywall](#)")

As there are often multiple external links with different access levels in the same citation, these values are attributed to a particular external link.

Access indicators for url-holding parameters

Sources linked by `|url=`, `|chapter-url=`, `|entry-url=`, `|article-url=`, and `|section-url=` are presumed to be free-to-read. When they are not free-to-read, editors should mark those sources with the matching access-indicator parameter so that an appropriate icon is included in the rendered citation. Because the sources linked by these url-holding parameters are presumed to be free-to-read, they may not be marked as free.

url-holding and access-indicator parameters

url	access	allowed keywords
<code> url=</code>	<code> url-access=</code>	registration Free
<code> article-url=</code>	<code> article-url-access=</code>	registration required
<code> chapter-url=</code>	<code> chapter-url-access=</code>	limited Free access
<code> contribution-url=</code>	<code> chapter-url-access=</code>	subject to limited trial
<code> entry-url=</code>	<code> entry-url-access=</code>	subscription normally required
<code> section-url=</code>	<code> section-url-access=</code>	subscription Paid
		subscription required

[File:Dagger-14-plain.png](#) `|contribution-url-access=` not currently defined; use its alias `|chapter-url-access=`

Access indicator for named identifiers

Links inserted by named identifiers are presumed to lie behind a paywall or registration barrier - exceptions listed below. When they are free-to-read, editors should mark those sources with the matching access-indicator parameter so that an appropriate icon is included in the rendered citation. Because the sources linked by these named-identifier parameters are not presumed to be free-to-read, they may not be marked as limited, registration, or subscription.

named-identifier and access-indicator parameters

identifier	access	allowed keywords
bibcode=	bibcode-access=	
doi=	doi-access=	
hdl=	hdl-access=	File:Dagger-14-plain.png free Freely accessible
jstor=	jstor-access=	
ol=	ol-access=	
osti=	osti-access=	

Some named-identifiers are always free-to-read. For those named-identifiers there are no access-indicator parameters, the access level is automatically indicated by the template. These named identifiers are:

- |arxiv=
- |biorxiv=
- |citeseerx=
- |pmc=
- |rfc=
- |ssrn=

Ambiguous access parameters

The parameters |registration=yes and |subscription=yes can also be used to indicate the access level of a citation. However, they do not indicate which link they apply to, so editors are encouraged to use |url-access=registration and |url-access=subscription instead, when the restriction applies to |url=. If the restriction applies to an identifier, these parameters should be omitted.

These parameters add a link note to the end of the citation:

- **registration:** (deprecated) For online sources that require registration, set |registration=yes (or y, or true); yields to **subscription** if both are set. Use the appropriate [access-indicator parameter](#)
- **subscription:** (deprecated) For online sources that require a subscription, set |subscription=yes (or y, or true); supersedes **registration** if both are set. Use the appropriate [access-indicator parameter](#)

Setting |registration= or |subscription= to any value other than y, yes, or true will generate an error message.

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
