50px Template documentation

[\[view\]](#) [\[edit\]](#) [\[history\]](#) [\[purge\]](#)

This template is used on [approximately 249,000 pages](#).

To avoid major disruption and server load, any changes should be tested in the template's [40px /sandbox](#) or [/testcases](#) subpages, or in your own [user subpage](#). The tested changes can be added to this page in a single edit. Consider discussing changes on the [talk page](#) before implementing them.

Usage

This template duplicates {{[end](#)}} for technical reasons. See the documentation on that page.

Why this template exists

The various [succession box](#) templates are considered navigational content and thus are excluded from print in the [PDFs and printed books](#). However, {{[end](#)}} can be used to end *any* table, thus that template cannot be excluded from print. However, {{s-end}} can be excluded without any negative repercussions. Similar templates that are unambiguously the end of tables which should be excluded in print should redirect here, rather than to {{[end](#)}}.

If you see any succession template ending with {{[end](#)}}, please change it to {{s-end}}.

TemplateData

This is the [TemplateData](#) for this template used by [TemplateWizard](#), [VisualEditor](#) and other tools. [Click here](#) to see a monthly parameter usage report for this template based on this TemplateData.

TemplateData for S-end

Blue Gold Program Wiki

The wiki version of the Lessons Learnt Report of the Blue Gold program, documents the experiences of a technical assistance (TA) team working in a development project implemented by the Bangladesh Water Development Board (BWDB) and the Department of Agricultural Extension (DAE) over an eight+ year period from March 2013 to December 2021. The wiki lessons learnt report (LLR) is intended to complement the BWDB and DAE project completion reports (PCRs), with the aim of recording lessons learnt for use in the design and implementation of future interventions in the coastal zone.
